Greater Noida West U.P 201306

### Hard Skill

---

- Python
- Azure
- AWS
- Cloud Infra deployments
- Team Management
- Agile

### Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

### About Me

---

As a skilled cloud infrastructure and billing manager, I bring a wealth of technical expertise and a self-driven approach to my work. With a deep understanding of platforms such as Azure, AWS, Docker, and Kubernetes, I have successfully implemented and managed complex cloud solutions for a range of clients.

Additionally, my proficiency in programming languages such as Python and experience working with Azure Functions and Bicep make me a versatile and adaptable team member.

I take pride in my ability to stay up-to-date with the latest industry trends and technology advancements through self-research, and I am always eager to apply my knowledge to new challenges. I am a proactive problem-solver, and I am confident in my ability to find innovative solutions to even the most complex problems.

Whether working independently or collaboratively, I am committed to delivering results that exceed expectations. With a passion for excellence and a track record of success, I am confident in my ability to make a valuable contribution to any organization.
